HWP Joint Action - WP 4. Data for improved health workforce planning

HWP Joint Action - WP 4. Data for improved health workforce planning

Activity descriptions

Activity 1. Terminology gap analysis

Analysis of the differences between the Joint Questionnaire data definition for the 5 harmonised health professions (doctors, nurses, pharmacists, dentists and midwives) in the three main categories (registered, professionally active and practicing categories) and the actual contents of data collected by MSs participating in WP4. Analysis supported by a questionnaire sent to MSs. Countries fill out questionnaire (3 days). The Matrix study findings and the European Community Health Indicators will be also taken into consideration.

Compilation of a report on the findings of the above terminology gap analysis - including policy recommendations for better data collection based on proper definitions. (Countries contribute 5 days each)

Activity 2. Mobility data mapping

Mapping of health workforce mobility data within the EU, including available mobility definitions. Information sources incude DG Markt database (recognised foreign diplomas), Matrix Feasibility Study, Health Prometheus, ECAB, MoHPRof and RN4cast, and the Mobility minimum dataset draft guiding principles developed by OECD and WHO.

Preparation of policy recommendations in the following areas:

PREZI to collect better mobility data

how to make better use of DC Markt database

Accuracy

- What kind of data source do you use when compiling data for the Joint Questionnaire on non-monetary health care statistics?
- Do you use estimates to respond to some data requests in the Joint Questionnaire? (Please explain)
- If the data are based on a sample from national data does it cover the whole country or a part of the country?
- · Does your data include both public and private providers?
- · Can you separate public providers from private providers?

Accessibility and Clarity

 Are data available according to the definitions in the Joint Questionnaire on non-monetary health care statistics?

ISCO Compatibility

• Do you use the recommended ISCO code for the respective health employment staff?

Our Agenda for this Workshop

Agenda.

Budapest Workshop -Joint Action on European Health Workforce Planning Work Package 4. on Data

Date: 13-14 June 2013 Location: Ministry of Human Resources Budapest, District 5. Akadémia utca 3. Floor 2.

June 13, Thursday

Secretariat of Health
10.10. Labest developments in the loi of Addies Michel Van Hungsandan, the Program on Manager
of the levit Addies
10.20. Workshop Dispring Issals of the Euclapest
Workshop - Zulfan Ascralos, WPS Leader

Winnesse - Zurtan Andrause, Wes Leader 10.36. Interactive little is White session 11.66. The GEOD Eurostati WHII-Europe loi nit Quantitionnal in - a source of informational on Inparotive data - Geoton Labortaine, Senior Economist, CECCO Health Davision

11.60. Presentation of "Homeworks" Eszter Koracs and Edmand Girasek, Semmelweis
University, Hungary

Reja Arlasmas, Kational Agency for Health and Welfare, Finland

12:30. Lunch Break

 Terminalogy and Data Source Session: Drafting WH4 Questionnaire about the loi st Questionnaire. . Mobility Session: Planning of mability research

PEALTH SERVICES MANAGEMENT TRAINING CENTRE

16.30, Plenary feedback from session meetings on Joint Questionnaire and Mobility issues

June 14, Friday

Ministry of Human Researces.

98.55. The HREF planning model of the Netherlands.

— data sepurements. List durinder Velden, Selsor researcher, Capacitalisergram / MVEL.

10.10. (all feet broads.

10.25. One-to-one 7 min discussions on national

11.30. Feedasch on Joint Action developments

12.00. Closing discussion and closing speeds 12.30. Closing Lunch

Agenda

Budapest Workshop -Joint Action on European Health Workforce Planning Work Package 4. on Data

Date: 13-14 June 2013

Location: Ministry of Human Resources

Budapest, District 5. Akadémia utca 3. Floor 2.

June 13, Thursday

09.30. Check-in

10.00. Greetings by the representative of the State Secretariat of Health

10.10. Latest developments in the Joint Action - Michel Van Hoegaerden, the Programme Manager of the Joint Action

10.20. Workshop Opening: Goals of the Budapest Workshop - Zoltan Aszalos, WP4 Leader

10.30. Interactive Who is Who session

11.00. The OECD/Eurostat/WHO-Europe Joint Questionnaire – a source of international comparative data – Gaetan Lafortune, Senior Economist, OECD Health Division

11.25. Coffee Break

11.40. Presentation of "Homeworks"

- Eszter Kovacs and Edmond Girasek, Semmelweis University, Hungary
- Reijo Ailasmaa, National Agency for Health and Welfare, Finland
- Frédéric Destrebecq: Union of European Medical Specialists and Marie Colegrave-Juge, French Medical Council

12.30. Lunch Break

13.45. Introduction to the topics of the 2 group sessions: Gaetan Lafortune, Edit Eke/Edmond Girasek

14.05. Parallel meetings for Activity 1. and 2. (Country level presentations are included in these workshop discussions).

- Terminology and Data Source Session: Drafting WP4 Questionnaire about the Joint Questionnaire.
- · Mobility Session: Planning of mobility research

15.20. During parallel meetings: Coffee Break

16.30. Plenary feedback from session meetings on Joint Questionnaire and Mobility issues

After the official program, a walk in the historic City Centre followed by a Dinner from 18.00

June 14, Friday

09.00. Opening

09.15. Presentation of Terminology literature mapping - Edit Eke, Semmelweis University, Hungary

09.30. Monitoring human resources for health in Hungary - Zoltan Cserhati, Head of the Department for Health Sector Human Resources Strategy, Ministry of Human Resources

09.55. The HWF planning model of the Netherlands - data requirements. Lud van der Velden, Senior researcher, Capaciteitsorgaan / NIVEL

10.10. Coffee break

10.25. One-to-one 7 min. discussions on national priorities in data collection

11.30. Feedback on Joint Action developments - WP5 and WP6.

12.00. Closing discussion and closing speech

12.30. Closing Lunch

June 13, Thursday

09.30. Check-in

10.00. Greetings by the representative of the State Secretariat of Health

10.10. Latest developments in the Joint Action - Michel Van Hoegaerden, the Programme Manager of the Joint Action

10.20. Workshop Opening: Goals of the Budapest Workshop - Zoltan Aszalos, WP4 Leader

10.30. Interactive Who is Who session

11.00. The OECD/Eurostat/WHO-Europe Joint Questionnaire - a source of international comparative data - Gaetan Lafortune, Senior Economist, OECD Health Division

11.25. Coffee Break

11.40. Presentation of "Homeworks"

• Eszter Kovacs and Edmond Girasek, Semmelweis University, Hungary

 Reijo Ailasmaa, National Agency for Health and Welfare, Finland

 Frédéric Destrebecq: Union of European Medical Specialists and Marie Colegrave-Juge, French Medical Council

12.30. Lunch Break

13.45. Introduction to the topics of the 2 group sessions: Gaetan Lafortune, Edit Eke/Edmond Girasek

14.05. Parallel meetings for Activity 1. and 2. (Country level presentations are included in these workshop discussions).

 Terminology and Data Source Session: Drafting WP4 Questionnaire about the Joint Questionnaire.

• Mobility Session: Planning of mobility research

15.20. During parallel meetings: Coffee Break

16.30. Plenary feedback from session meetings on Joint Questionnaire and Mobility issues

After the official program, a walk in the historic City Centre followed by a Dinner from 18.00

June 14, Friday

09.00. Opening

09.15. Presentation of Terminology literature mapping - Edit Eke, Semmelweis University, Hungary

09.30. Monitoring human resources for health in Hungary - Zoltan Cserhati, Head of the Department for Health Sector Human Resources Strategy, Ministry of Human Resources

09.55. The HWF planning model of the Netherlands - data requirements. Lud van der Velden, Senior researcher, Capaciteitsorgaan / NIVEL

10.10. Coffee break

10.25. One-to-one 7 min. discussions on national priorities in data collection

11.30. Feedback on Joint Action developments - WP5 and WP6.

12.00. Closing discussion and closing speech

12.30. Closing Lunch
