

# Joint Action on Health Workforce Planning and Forecasting

## Work Package 2

### Knowledge Brokers Network

European Health Management Association

Jeni Bremner & Paul Giepmans

Brussels - April 11, 2013

## 2 Aim of the Knowledge Brokers Network

- Promoting the JA and its results
- Providing key information to the JA
- Supporting the development of national and professional platforms for health workforce planning and forecasting

3

## Outcomes

- Developing better planning mechanisms
- Higher quality of Joint Action deliverables
- Sustainable national networks

## 4 Profile of knowledge brokers

- Expertise workforce data/methodologies NOT required
- Can be employed by any organisation
- Needs to have access to political decision making and the most relevant actors
- Informed on national policies and current state-of-play on national workforce planning initiatives
- Professional interest in better workforce planning

5

## Ways of working

- Minimum involvement of 10 days/year
- WP2 team manages/filters requests for input from JA partners
- Guidelines for WP leaders
- Random requests to knowledge brokers - up to individuals to follow-up

6

## Time lines for setting up the network

- Other WPs depend on the (quality of) knowledge brokers - need to start fast and well
- Aim: have the network by 1 June 2013
- In case some partners have designated none, the main contact person of the JA will be assigned as default (might be you!)

7 **Thank you for your attention !**
